

Excellence  Innovation  Savings

WHO ARE WE?

SAMR (Sa-mir) is an engineering firm that provides process, design, management, and commissioning services to federal, state, county, and municipal governments, and private developers across a variety of industries on new construction and renovation projects. We specialize in public works, public infrastructure, and mechanical, electrical, plumbing (MEP), and energy management.

Most of our public works and public infrastructure projects focus on water process-wastewater process and design engineering. Our water and waste projects are on water distribution, water treatment, and wastewater treatment plant facilities. Our engineers design and maintain mechanical, heating, ventilation, air-conditioning (HVAC), plumbing, and electrical systems that incorporate energy conservation and energy efficiency into every design. Our management services are available at the beginning of a concept or upon completion of the design/build phase of a project where utility management and facility management provide preventive maintenance and other cost saving features.

PROCESS ENGINEERING AND OPERATIONAL SUPPORT PROJECT HISTORY

- ✚ Biosolids Study – Water Pump Condition and Capacity Assessment
- ✚ Major Electrical Upgrade – Water Treatment Plant
- ✚ Electrical Evaluation – Wastewater Treatment Plant
- ✚ Pumping Facilities PEI Calculations and Optimization Evaluations
- ✚ Water Supply Study
- ✚ Water Laboratory Upgrade Study – Water Treatment Plant
- ✚ Lake Daniel Clearwell THM Removal Project
- ✚ Arc-Flash / Electrical Safety Program
- ✚ Influent Pump Station Renovation Study – Wastewater Treatment Plant
- ✚ AWIA – America Water Infrastructure Act
- ✚ Operational and Maintenance Support – Water Treatment Plant / Wastewater Treatment Plant

DESIGN ENGINEERING PROJECT HISTORY

- ✚ Water Booster Pump Station Design
- ✚ Lift Station Design
- ✚ Water Laboratory Upgrade Design
- ✚ Influent Pump Station Renovation design
- ✚ Major Electrical Upgrade Design
- ✚ Lake Daniel Clearwell THM Removal Design
- ✚ Influent Pump Station Renovation Design
